

# THE NATIONAL PROJECT FOR EXCELLENCE IN ENVIRONMENTAL EDUCATION

*Excellence in Environmental Education—Guidelines for Learning (Pre K-12)* is part of a continuing series of documents published by the North American Association for Environmental Education (NAAEE) as part of the National Project for Excellence in Environmental Education. The Project is committed to synthesizing the best thinking about environmental education through an extensive process of review and discussion. Thus far, thousands of individuals and organizations representing all aspects of education and environmental education have reviewed working outlines and drafts. Reviewers include teachers, educational administrators, environmental scientists, curriculum developers, and natural resource agency and education department staff.

## **Acknowledgments**

Special thanks to the thousands of teachers, curriculum developers, educational administrators, environmental education specialists, and environmental scientists who have reviewed drafts of this document, and to Carol Adkins, Bob Carter, Jane Eller, Joe Heimlich, John Lancos, Colleen Murakami, Al Stenstrup, Susan Toth, Sally Wall, and Sarah Wilcox for kindly providing input into the 2004 revision of the National Project for Excellence in Environmental Education publications.

## Members of the Guidelines Writing Team
